

The ultimate, dual-lockable gravity latch for privacy gates

LokkLatch DELUXE

- Operates and locks from both sides of the gate
- Re-keyable, 6-pin security locks
- Super-strong polymer construction with stainless steel components ensures no rust or corrosion
- Fully adjustable vertically and horizontally
- Fits posts up to 150mm deep
- One model fits all square posts and gate frames

Overview

The LokkLatch® Deluxe is a high quality privacy and security gate latch. Side-fixing legs provide extra double-face fixing strength and easy alignment. It also only requires one hole drilled through the post, meaning easier installation.

The LokkLatch Deluxe with strong, moulded polymer construction and stainless steel components, takes an innovative approach to the gravity latch principle and combines the unique benefits of key-lockability and reliable latching action with superior design and rust-proof components. The Push-Button External Access allows the gate to be operated and locked from either side of the gate.

The LokkLatch Deluxe also offers adjustability both vertically and horizontally to ensure proper fit and reliable operation. This latch is ideal for all square post gate and fencing materials as well as left or right hinged gates for easy installation.

Key-lockable security. Peace of mind.

MagnaLatch Side Pull - Lockable

- Reliable magnetic latching action
- Key-lockable security
- Adapts to metal, wood or glass gates
- Magnetically triggered (no jamming or sticking)
- No visible fasteners
- Quick & easy install

Overview

The MagnaLatch® Side Pull key-lockable model is a general-purpose magnetic gate latch that offers simple, effective latching for home and garden gates. Its sleek design offers 10mm horizontal and vertical adjustment that helps to extend the life of a gate by repairing gate sag and movement over time.

Easy to install and adapts for left or right-hinged gates.

MagnaLatch® Side Pull also comes as a non-locking standard model. (see Product Code information on MagnaLatch® Side Pull page)

MagnaLatch® lockable Side Pull Gate Hardware Kit is a dedicated model for use on 50mm Round Posts to glass gate applications. The kit includes an attractive "pearl grey" powdercoated gate stop fitting. These kits are available as Standard or Key lockable (see Product Code information on MagnaLatch® Side Pull page)

World's safest pool gate latch for playgrounds and child safety areas

MagnaLatch Top Pull

- Reliable magnetic latching action
- Highly child-resistant
- Adapts to all child safety gates
- Magnetically triggered (no jamming or sticking)
- Key Lockable
- Meets Australian swimming pool Codes
- Quick & easy install

Overview

Designed specifically for swimming pool gates, playgrounds and all child safety gates.

MagnaLatch® Top Pull is the ultimate safety gate latch. Designed with the release knob out of the reach of children, it is also key-lockable for added safety. MagnaLatch Top Pull features D&D's patented 'Lost Motion' technology, which stops the latch from disengaging due to shaking, prising or slamming.

Tested to rigorous standards, the Top Pull model has been independently verified to meet stringent international Safety Codes, and has received several prestigious accolades including the Australian Design Award.

Installation is simple, with vertical and horizontal adjustment allowing for quick and easy alignment on the gate, as well as fine-tuning at any time to accommodate for gate sag or earth movement over time.

Magnetic gate latch for pet security, ideal for most gate materials

MagnaLatch Vertical Pull

- Reliable magnetic latching action
- Highly child-resistant
- Adapts to all gates
- Magnetically triggered (no jamming or sticking)
- Key Lockable
- Quick & easy install

Overview

The MagnaLatch® Vertical Pull, offers safety and security for your pets. Using the same revolutionary technology as the MagnaLatch Top Pull, in a smaller, more compact design. The MagnaLatch Vertical Pull is ideal for mounting on pet security gates and garden or household gates.

MagnaLatch Vertical Pull offers easy vertical and horizontal adjustment, is key-lockable for added security.
