KABA®

Access Control

E-Plex - Electronic Pushbutton Locks

Kaba's electronic access control provides additional features beyond mechanical access control. E-Plex products range from simple programming at the lock to more advance applications requiring software for managing many users and doors. PIN and/or card access locks allow management to set access schedules and review activity via audit trail.

E-Plex 2000

Economical - The perfect entry level commercial electronic push button lock.

E-Plex 3000

Narrow Stile - Heavy-duty keyless locking for aluminium and narrow stile doors.

E-Plex 5000

Legendary - Combines strength, simplicity and reliability with enhanced security.

E-Plex 5200

Sophisticated - Ideal for applications requiring access schedules and holiday blocks.

E-Plex 5700

Innovative - Dual credential locking for heightened security levels and complete control.

E-Plex Software

Advanced - Point-and-click lock management systems with auditing capacity.

E-Plex 2000

Electronic Pushbutton Lock

The economical E-Plex 2000 is the perfect entry-level commercial electronic push button lock. The efficient solution for electronic access control features innovative design, combining the strength, simplicity and reliability of the E-Plex range in a stylish, intuitive pushbutton lock. The stand-alone unit is easily managed with simple keypad programming without using any software or computers.

PIN access eliminates the need for magnetic cards and the need to change credential details each time a user is changed or card is lost/stolen. The E-Plex Series' are easy to install and maintain, requiring no wiring to or through the door. The user-friendly design is equipped with ADA compliant levers and audio visual indicators notifying users when access is granted or denied.

Options

Function Options

Cylindrical Lock, Cylindrical Privacy, Mortice Lock or Exit Trim.

Handle Options:

Winston Lever or Winston Knob (available with Cylindrical only)

Colour Range:

Standard: = Satin Chrome.
Custom*: = Bright Chrome, Satin Brass, Bright Brass, Black.

E-Plex 5200 Series

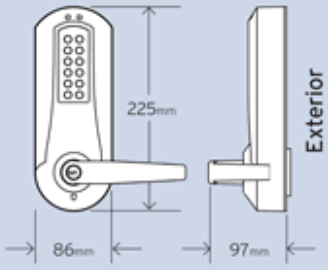

The sophisticated E-Plex 5200 is ideal for applications requiring access schedules and holiday blocks, especially locations with high user turnover.

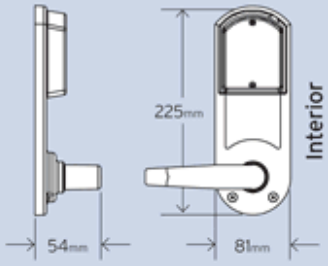

Locks are programmed with user-friendly E-Plex software that requires no special knowledge to operate. You can easily add users and doors as your facility's needs grow with each lock accepting up to 3000 different access codes.

The extensive audit trail offers flexibility enabling you to limit the size of your audit report to specific periods, such as the last seven days. The advanced Access Control Software (ACS) records and saves the last 30,000 lock events to provide user accountability. Audit information is downloaded to customised spreadsheets for analysing, sorting, or printing.

E-PLEX® 5200

E-Plex 5700 Series

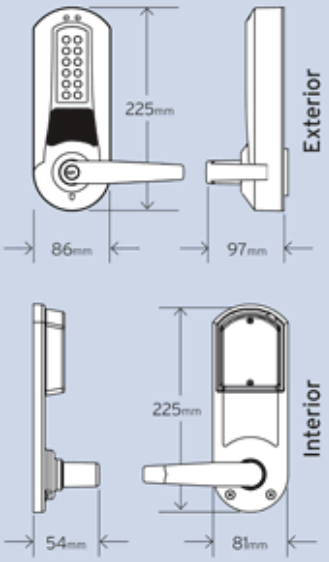

The innovative E-Plex 5700 adds dual credential locking for heightened security levels. Lock access can be set to require PIN code only, PROX card only or both when additional security is required.

Credential requirements are controlled by access schedules and can vary throughout the day or week. The fully customisable dual credential operation allows for a complete access control network suitable for varied authority, high traffic facilities.

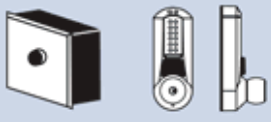

Utilising the same software as the E-Plex 5200, extensive audit trailing and scheduling is available with no cables needed to upload / download user and audit information.
