## Kaba IP Restricted

### Restricted Keys & Cylinders

IP Restricted  
Key Systems

Kaba IP6 Series Restricted Security Key System provides a standard restricted level of extra security with key control and access control.

Kaba is only available from locksmiths who are bound by legal agreement to deal with IP6 Series Restricted Security products and keys.

Kaba IP6 keys can only be duplicated when you and/or your elected person authorise key duplication and can only be duplicated by the locksmith company who holds the owner's signature and records.

Nothing can replace the reliability of a mechanical key system. Mechanical locking systems are often installed in conjunction with an electronic locking systems for security, reliability and economic purposes. For these reasons mechanical override cylinders are always required for additional security and in case of an emergency.

#### Kaba IP6 Features Include:

- \* Covered by Australian Design Registration
- \* Strong Nickel Silver Keys
- \* Anti Duplication Keys
- \* Brass Cylinders and Components
- \* Standard Inline Configuration
- \* Key & Cylinder Profile Makes Lock Manipulation Difficult
