At **AkzoNobel**, our priority is our customer's successful future. We have consulted with many customers in Australia and New Zealand to review the needs of the Industrial and General Trade Coater powder coating market. Based on the valuable feedback and suggestions, we have released **Color for Industrial Design**, featuring the most comprehensive range of colors and products ever supplied by **Interpon Powder Coatings** for the **Industrial** and **General Trade Coater**. Our aim is to provide greater service and contribute greater value to all our customers.

THE Interpon RANGE

Interpon TC

Interpon TC is a exterior durable powder coating designed to meet the specific needs of the **Industrial** and **General Trade Coater**

Interpon D1000 Excel™

Interpon D1000 Excel™ has been developed for application over porous substrates, such as hot-dipped galvanised (HDG) steel and castings, providing greater application tolerance and improved final film appearance. **Interpon D1000 Excel™** is also suitable for aluminium and steel substrates.

COLOR FREEDOM FOR INDUSTRIAL DESIGN

AkzoNobel values the importance of color and finish to your business in satisfying your customer needs. If you cannot find the color or finish in this extensive offer, **Color for Industrial Design**, why not take advantage of our made-to-order color service. For smaller projects down to 20kg, **Interpon MiniB™** and **Interpon MiniB™ Micro** provides fast service on small batch made-to-order colors that

are specific to your needs. Some conditions do apply such as choice of color and product. Please contact the **Interpon** Customer Care Team for additional advice.

HOW TO SPECIFY Interpon POWDER COATINGS

Once you have chosen **Interpon** Powder Coatings for your project, it's important to use the correct product. So we make specifying **Interpon** powder coatings easy. Simply:

- Nominate the **Interpon** product. e.g. **Interpon D1000**.
- Nominate the color, finish and product code. e.g. Anodic Natural Matt GY235A.

To find your nearest **Interpon** applicator, please contact your **Interpon** representative or the **Interpon** Customer Care Team.

Colors displayed on this color card are a guide only and have been matched as close as possible to Interpon production standards under daylight conditions. Due to the nature of the printing process some degree of color and gloss level variation may occur. Where more than one finish is available product color may vary. We recommend that you use production line prepared samples for final color selection or approval.

Most gloss finishes on this card are available in EC technology as Made to Order **MiniB**.

Urban White & Urban Black are available ex-stock although not depicted on Color Card.

- Colors displaying the orange color circle are not recommended for use where high UV exposure is likely.
- Colors displaying the red color circle are for internal use only
- Colors displaying the blue color circle are recommended to be over coated with SupaClear VP188 powder coating for exterior use or aggressive internal applications

COLOR FOR INDUSTRIAL DESIGN RANGE:

Interpon Color Energy - A collection of striking colors to accent modern features.

Interpon Ripple Series - A distinctive course texture effect which also allows masking of substrate surface defects.

Interpon Sablé™ Textures - A novel sandy appearance offering enhanced surface scuff resistance.

Interpon Vivica™ Series - A metallic finish offering a timeless pearlescent lustre.

Interpon Anti Graffiti - An **EasyClean** solution for removal of graffiti.

Interpon Primers - Enhanced corrosion resistance and service life for steel and metals.

Interpon Bright Silvers - Patented "AS Particle Management Technology", enhanced application and recycling of bright metallics.

Interpon SupaClear VP188 - A clear / transparent powder coating designed for the automotive industry. This product features outstanding clarity and durability.

Interpon Collection Anodic - A great alternative to anodised aluminium featuring a brilliant sharp modern metallic powder finish.

Interpon Living Series - A classic range of local favourites in subtle and neutral shades.

Interpon Excel™ - Degassing technology provides smoother films over porous substrates. Features COLORBOND® steel standard range.
